

**OLDEST CERC MEMBERS???**

WARREN & PAUL  
MARCH 16, 2017

In the April issue of the *"Companion"*, we reported that former Truck Chief Engineer, Paul Hitch, is 100 years old, made aware of this fact by Ken Hewitt.

On a recent trip to Florida, motivated by the April article, Warren and Kathy Galbraith made a stop in Savannah to visit Paul. Warren provided the image shown. Our thanks to Warren and Kathy.

Fran Opaleski, wife of our late CERC President Gil, suggested that we find the oldest CERC members. If you are one of the senior-seniors, this is a request to provide the CERC with your birth date and job responsibilities while still

working at CEC (in the distant past), anything interesting in your life or that of your family. A photo would also be great. At this point in our lives, age becomes a source of pride.

**YOU SENIOR-SENIORS, DON'T LET US DOWN. PROVIDE US WITH REQUESTED INFORMATION. IT WILL BE FUN AND INTERESTING TO KNOW ABOUT YOUR LIVES.**
